Budget estimate

for the year ending December 31, 2019

Between November 15 and December 31 of each year, the Municipal Council must prepare and adopt the municipality's budget for the next fiscal year beginning January 1st. The Council must deliver a balanced budget that provides for income at least equal to expenses in order to comply with Section 954 of the Municipal Code.

The submission of the financial information contained in the municipality's Budget Estimates Report must comply with the standards of the ministère des Affaires municipales et de l'Occupation du territoire (MAMOT).

However, in 2017, the government has cancelled the "Budget Forecast" form and now this budget forecast is to be included in the financial report. Thus, you will find only the annual presentation that was made during the special meeting held on December 20, 2018. That annual report included the submission of the budget as well as the investing activities.
