The Art of Living, Frelighsburg Style!

The 2019 edition of "Art de vivre" will include two large gatherings in the heart of the village during the "Journée nationale des patriotes" and Labor Day weekends.

These highly festive weekends will feature two major projects:

- **The launch of "Adélard", on May 18 and 19, 2019**, an immersion (homes/workshops) in visual arts to promote exchanges with the community and visitors;

- **The Festival du bois d'exception initiated by the Réseau foresterie**

Frelighsburg et les environs on August 31 and September 1, 2019, intended to achieve sustainable forestry that will create new business opportunities and local jobs.

The program is designed to bring together producers involved in vineyards, cider houses and breweries, as well as artists and artisans, food producers and market gardeners. Visitors young and old will also enjoy fun sports and social/community activities.

If you would like to participate in these events as exhibitors or sponsors, please contact the organization at (450) 298-5630.

Public Consultation on the Development of a Cultural Policy

A strong connection with culture is one of Frelighsburg's most distinctive features, as evidenced by the large number of artists and artisans living in our area, as well as the community's vibrant interest for everything cultural.

To help set the foundation for our cultural actions and guide our future choices, the Town Council wishes to have a policy that reflects the character of Frelighsburg.

You will soon be invited to complete a questionnaire, online or by mail. Your answers will help us develop Frelighsburg's cultural policy. Many thanks in advance for your participation!

Customer Registration with IHR for High-Speed Internet

As you know, the installation of fibre optics on the territory of the MRC is underway.

In order to connect their residence to the IHR Telecom network for Internet, telephone and television services, citizens must complete the registration form on the IHR website at: <https://ihrtelecom.com/demande-dinformation-supplementaire/>.

IMPORTANT: Even if our municipality will be linked to the fibre optics technology in 2020, citizens who wish to have these services can register now to help IHR Telecom plan the connections.
