A WORD FROM THE MAYOR

Dear Community,

Many activities are on the menu this month, and I hope you will find time to take part in them.

Here are a few items we are focusing on right now.

Water Softener Project for the Drinking Water Treatment Plant

Many residents comment on how hard the water is in the village. Since adding a water softener to our Drinking Water Treatment Plant is eligible for the TECQ program – which finances municipal drinking water infrastructures in particular – we are moving forward with this installation.

Submissions for plans and specifications are currently being pursued and if these proposals meet expectations, we will submit a request for authorization to the Ministère de l'Environnement, de la Lutte contre les changements climatiques, de la Faune et des Parcs. The term of acceptance for such a request being around three months, installation could start as early as the beginning of 2024.

Road Emergencies

You will soon have access to a new telephone extension number to report any road-related emergency outside the Town Hall's opening hours. We'll get back to you with the contact information as soon as everything is operational.

Community Fridge to Prevent Food Waste

As previously announced, this project is about to become a reality. We are working with the Cowansville Volunteer Centre to provision the fridge with surplus food donated by local vegetable producers. You will receive a message on available foods via the Municipality's website and Facebook page.

Goodhue Park is Stepping Up!

Following suggestions made by citizens in the survey conducted by the Society Advisory Committee, the creation of a trail in Goodhue Park is scheduled to begin during the week of August 17 and be completed by Labour Day.

In addition, the application we submitted for a grant covering 75% of the purchasing cost of a clubhouse – for a maximum of \$50,000 – has been accepted. If everything goes as planned, the new clubhouse will be ready to welcome skaters next winter!

I look forward to seeing you and chatting during our amazing Village Celebration, Saturday, August 5th.

Arts Centre

À la vitesse que poussent les arbres
Launched on July 13, Guy Tremblay's exhibition continues until August

13. By showing trees and their environment, his photographs represent a nature left intact or regenerated by humans. Their poetic impact stems from the subtlety of their tones in a range of gray, black and white. This striking gist comes from using the silver photography technique as well as platinum & palladium printing, a process that has existed since 1830. The result is a collection of delightful timeless pictures!

À nu

Sanders Pinault's exhibition runs from August 17 to September 17. Her oil and charcoal artworks evince human fragility. Openness to others without dissimulation and surrender in the act of painting the bare human form attest to the artist's desire to look reality squarely in the face with compassion, sensuality and tenderness.

COMMUNAUTÉ

Adélar

Saturday, August 5, at 4 p.m.: end-of-residence exhibit by Chilean artist Sarabeth Triviño at the barn. During her residency, Sarabeth created many experiments that mixed ceramics and textiles on archetypes of seeds from food plants.

Saturday, August 12: the barn welcomes emerging wood carver Myriam Simard Parent, whose artistic world is evocative of 1970s surrealism.

September 2 and 3 at the barn: live creation event *Les Puces chez Adélar*, during which nine artists will explore the intimacy between art and food.
