t is with great pride that I introduce to the population of Frelighsburg the "plan d'action Municipalité des Aînés". This process has allowed us to target the appropriate measures to improve the quality of life for our elderly and to establish solid collaborations with other neighbouring municipalities and our partners. The adoption of this policy and this action plan officially registered the elderly right in the heart of our concern in our municipality. I warmly invite you to read about it and to live accordingly with the commitment we have undertaken.

Jacques Ducharme Mayor of Frelighsburg

t is with great enthusiasm that I present the very first Policy for the Elderly for the Municipality of Frelighsburg.

It is with great pleasure that I wish to thank all our partners who made possible the drafting of this MADA policy. The purpose is to create a policy to clarify the various functions of the municipality in regard of the needs and aspirations of our elderly, and that directly or in partnership with government services, institutions as well as with the community groups. This policy tends to support the active participation of the elderly in the development of communities, home care and their social inclusion.

Thanks to the committee for their commitment and time to reach this unveiling today. Also thanks to our partners who have agreed to join the municipality in the implementation of these actions. I also want to sincerely thank all the people who participated in the public consultation of last autumn. Your precious collaboration, dear citizens, was essential to reach this result.

I am sure that this policy will further contribute on many levels while improving the quality of life for our elderly. Our community should be proud and will benefit from these actions in order to revitalize itself within the next few years.

In conclusion, dear Frelighsburgers, I invite you to participate in the implementation of plan of action because this is the way you will contribute towards making our municipality as a place where "I want to age well in Frelighsburg"

Thanks to all!

Marie-France Moquin

GEOGRAPHIC PROFILE

ECONOMIC PROFILE

SOCIO-CULTURAL PROFILE

The municipality of Frelighsburg has preserved the loyalist charm that has presided over this town since its birth. From an architectural standpoint, many patrimonial buildings reflecting its bicentennial origins are evident. Its unique cachet has enabled it to become a member of the Association des plus beaux villages de Québec (Association of the most beautiful towns in Ouebec), as well as part of the Route des vins (Wine Route) and the Chemin des cantons (Townships Roadways).

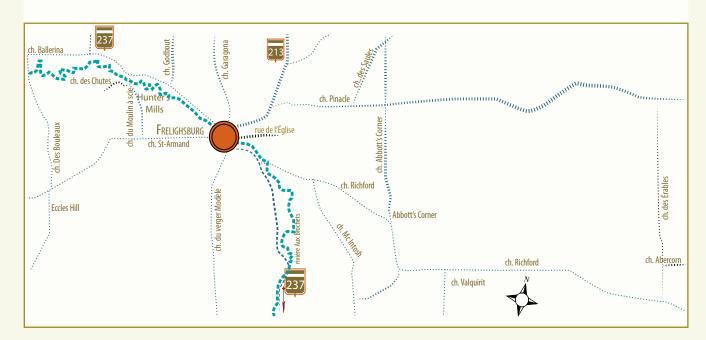

Fruit-growing farms proliferate throughout the territory of Frelighsburg, and the magnificent landscape has attracted many artists and artisans who have captured the splendor of the village, undulating with beauty. Tourists are also very evident in this natural, carefully preserved, environment; where they can find historical information sites, lodging and restaurants reflecting the unique character particular to the municipality.

Numerous non-profit organizations operating in Frelighsburg, as well as many involved citizen committees, make this an extremely dynamic community: there being more than fifteen currently participating in various fields of activities. Whether speaking of leisure activities, environment, history, art, culture or crafts, be assured that there is a corresponding organization actively in place. As concerns citizen involvement in the life of the school, churches or simply in the offer of activities for seniors, you will encounteers numerous of dedicated volunteers.

DEMOGRAPHIC PROFILE

Legally constituted since 1806, and after experiencing a final fusion in 1951, the municipality of Frelighsburg now covers a surface area of

123.7 Km²; the average population density is approximately 8.8 persons per Km².

Global Population Profile of Frelighsburg and MRC Brome-Missisquoi according to the 2011 census

	Frelighsburg	MRC BROME- MISSISQUOI
Population 2006	1030	52769
Population 2011	1094	55620
Median age of the population in 2011	49.2 yrs	46.5 yrs
Variation in the population 2006-2011	+ 6,2%	+ 5.4%

It should be noted that according to the most recent statistics from the MRC Brome-Missisquoi, the population of the Municipality of Frelighsburg 1084 persons in 2015. It can therefore be stated that the population has been very stable over the last couple of years.

Proportion of older people aged 55 years and older according to the 2011 census

The population of Frelighsburg comprises a higher proportion of older people than the MRC (4.5% more) but, in spite of this, there are less persons aged 75 years and older in the municipality than in the MRC.

		FRELIGHSBURG		MRC BROME-MISSISQUOI		
		Number of persons	% of the population	Number of persons	% of the population	
ì		persons	population	persons	population	
	55-64 yrs	225	20,5%	9585	17.2%	
	65-74 yrs	140	12.8%	6140	11%	
	75 yrs and older	75	6.9%	4155	7.5%	
	Total of those 55 and older	440	40.2%	19 880	35.7%	

It is possible that those persons 75 years and older leave Frelighsburg to reside in a more densely populated city, offering more services.

relationships.

VISION FOR SENIORS

Throughout the reflection by committee members, all agreed that seniors do not constitute a uniform group. Even though chronological age is not a determining factor, the Frelighsburg seniors policy targets persons 55 years and older.

 Two central facts have guided the group reflection, they are:

Seniors are full citizens living different realities

 Seniors are not a population sub-group, but rather a link in a bigger chain. Thus, the actions proposed to The areas of intervention encourage "the TASTE for aging were explored during the

The areas of intervention that were explored during the public consultation held in Frelighsburg have been imbued with the following values:
